

Mandatory information on principal adverse impacts on the climate and other environment-related adverse impacts of the consensus mechanism

N	Field	Content	
General information			
S.1	Name	Bankhaus Scheich Wertpapierspezialist AG	
S.2	Relevant legal entity identifier	54930079HJ1JTMKTW637	
S.3	Name of the cryptoasset	Flare	
S.4	Consensus Mechanism	Byzantine-Fault Tolerant (BFT)	
S.5	Incentive Mechanisms and	Byzantine-Fault-Tolerant (BFT) consensus	
	Applicable Fees	mechanisms, such as Proof of Authority (PoA),	
		Practical Byzantine Fault Tolerance (PBFT),	
		Byzantine Agreement (BA) or similar	
		mechanisms, secure the network through a	
		predefined set of validators who are trusted to validate transactions and add blocks to the	
		ledger. Unlike open networks where anyone can	
		participate (as in Proof-of-Work or Proof-of-	
		Stake), BFT and similar mechanisms operate	
		with known and vetted participants, often	
		selected by a governing entity. Validators are	
		incentivized to maintain the network's integrity	
		through monetary rewards or external	
		motivations, such as institutional trust or	
		regulatory obligations. Malicious actions, such	
		as submitting invalid transactions or failing to	
		participate in consensus, can result in penalties,	
		removal from the validator set, or other	
		repercussions, creating an economic and	
		reputational deterrent to dishonest behavior. Validators reach consensus by verifying	
		transactions and proposing blocks, and, as long	
		as a majority of validators act honestly, the	
		network remains secure.	
5.6	Beginning of the period to	2024-12-31	
	which the disclosure relates		
S.7	End of the period to which the	2025-01-13	
	disclosure relates		
Mandatory key indicator on energy consumption			
5.8	Energy consumption (per	88457.48895	
year) in kWh Sources and methodologies			
5.0	S.9 Energy consumption sources Data provided by CCRI; all indicators are based		
3.9	and methodologies	on a set of assumptions and thus represent	
	and methodologies	estimates; methodology description and	
		overview of input data, external datasets and	
		underlying assumptions available at:	
		https://carbon-ratings.com/dl/whitepaper-mica-	
		methods-2024 and https://docs.mica.api.carbon-	
		ratings.com. We do not account for any	
		offsetting of energy consumption or other	
		market-based mechanism as of today.
